

Table Table

Hello, welcome to our allergy information guide which is designed to help you make decisions on the food and drink that you order. As our menu descriptions do not include all ingredients or allergens, please use the allergy information guide to choose suitable dishes for you to eat and enjoy.

We take great care to prevent cross-contamination when preparing your order in our kitchens. However, due to the layout and operation of our kitchens we do not have specific allergen free zones and it is therefore not possible to fully guarantee separation of allergens. There is significant risk of cross-contamination in our buffet areas. **We cannot guarantee your order is 100% free from any allergenic ingredient.**

Please let a member of our team know if you have an allergy or sensitivities to any ingredient, even if you have dined with us before.

In our kitchens we have two fryers, one for chips and fries only and one for all other deep-fried products (non-chip fryer). Cross-contamination of allergens can occur in the non-chip fryer. If you would like further information on our cooking methods, don't be afraid to ask!

The allergen 'Tree Nuts' refers to the following tree nuts and their by-products: almond, Brazil, cashew, hazelnut, macadamia (Queensland nut), pecan, pistachio and walnut. The column 'Tree Nut source (if present)' will show the specific tree nut.

Our drinks allergy information contains the cocktails and similar drinks only. For soft drinks, spirits, wines, beers etc please consult the packaging or ask a member of staff.

We take care in producing this allergy information guide for you and work closely with the suppliers of our products to ensure data is accurate. This information may change at any time, so please check with us for up-to-date information.
